residential area urban development design, renewal, public space

### **Selection of Projects at HOSPER**

#### **Master plan Almelo Waterrijk**

Commissioned by the municipality of Almelo, a design for the new city district on the North side of Almelo with a surface area of c. 500 hectares and 4,300 residences was created. The plan is characterised by water and a fully integrated sustainable approach. In conjunction with M3H architects and the municipality of Almelo, 2008 - 2009.

#### **Design of public spaces for Droste terrain in Haarlem**

Commissioned by a developer, a design was drawn up for the layout of public spaces for the new residential location in the town centre on the Droste terrain, the former chocolate factory along the Spaarne river, design 2002-2005.

#### **Urban planning design and design for public spaces Stompetoren-Oost (*multiple contract, 1<sup>st</sup> prize*)**

Commissioned by a housing corporation and a developer, a urban leisure plan was drawn up in collaboration with HM architects and the public spaces elaborated for a small village expansion (140 residences) for the core Stompetoren in Schermer, 1999-2002.

#### **State of the art study of late post-war residential districts (1970-1985)**

Under the guidance of the Middelkoop agency (spatial studies and consultancy) the opportunities and bottlenecks for the future restructuring submissions for the so-called 'bloemkoolwijken' ('cauliflower districts' - developed 1970 - 1985, low-rise suburban areas) have been studied in collaboration with four architectural bureaus AAArchitecten, Heren5 architects, Buureau Lofvers and MADE architects), 2006-2007.

#### **Urban planning design and elaboration of public spaces for residential district in Schagen**

Commissioned by a development group, an urban planning design was created for a residential district of a good 400 residences. Together with architects and a civil engineering consultant the elaboration of the partial areas is being developed, 2005-present.

#### **Urban planning design, image quality plan and elaborations for public spaces residential district Rijnsoever Noord in Katwijk**

Commissioned by the municipality of Katwijk, an overall design for a residential district of a good 400 residences is being worked on, with urban planning, construction and public spaces being developed as a unit, 2006- present.

**Design for village expansion Nieuwerbrug (municipality of Bodegraven)**

Commissioned by the municipality of Bodegraven, a design was prepared for a village expansion with a maximum of 120 residences at a hyper-sensitive location in the green heart, starting in 2007.

**Landscape plan, urban plan and supervision of the residential landscape Franeker-Zuid**

Pursuant to a commission from the Municipality Franekeradeel and a consortium of developers a plan was drawn up for a residential landscape with meadowland, new woods and water and five residential neighbourhoods to the south of Franeker, 1999 - to date.
