

Curriculum Vitae, Raquel van Donselaar, M (1983), Urban Planner

Education

2001 - 2007 : Architecture, Delft University of Technology, cum laude

Work experience

2007 - to date : HOSPER NL BV, landscape architecture and urban design, Designer

2005 : OD205 urban design, research and landscape, traineeship

2004 - 2006 : TU Delft, Faculty of Architecture, Department of Architecture and Landscape, Student-Assistant

Specialisms

Town planning analyses, concept forming, and spatial design at city and district level

Selection of projects at HOSPER

Perm Strategic Master Plan, Perm, Russia

Commissioned by city management of the Russian city of Perm, the structural plan for the whole city is being drawn up. This agglomeration of 1 million inhabitants, situated on the river Kama close to the Russian Urals, is being renovated in all aspects. The Bureau Alle Hosper is designing the landscape and public space components of the plan in conjunction with the overall urban plan drawn up by KCAP, 2008 - 2009.

Rotterdamse Stijl (Rotterdam Style) Manual, elaboration of urban district structure

Commissioned by the municipality of Rotterdam, the urban district structure is described and linked with guidelines, 2008 - present.

Urban development plan Bodegraven Weidefeld

Commissioned by the municipality of Bodegraven, an urban development plan for 800 residences on the south-eastern side of Bodegraven was prepared. Elaboration at the level of cabling, architectural guidelines and public spaces, 2004 - 2006.

Voorschoten green structural vision

A green structure was drawn up for the municipality of Voorschoten in the built-up area. A structural plan had already been devised for the outlying area. The vision is linked to the existing one. Within the built-up area the reclaimed stretch - with the accompanying country estates - is an important starting point for the structure. The passages to the surrounding landscape constitute another point of departure. Within this structure the neighbourhoods have been analysed and key green structural elements in urban planning established, 2008-2009.

Karlskrona Amiralitetsplatsen, Sweden General competition for the redevelopment of the public and closed part of the naval base in Karlskrona, in the south of Sweden. The assignment for the public part was comprised of the design of a new entrance square, the guardhouse, a restaurant and a visitors' centre. In the closed part designs were made for a new ceremonial square, the redevelopment of the quay and a collective building for the navy, 2007-2008.

Area elaboration Broekhorn, Heerhugowaard

Commissioned by the province of North Holland, the municipality of Heerhugowaard and Rabo Bouwfonds an integrated plan was drawn up for the reconstruction of the N242 and the

development of the Broekhorn into a mixed urban area with space for living, working, nature and recreation, 2007 - present.

Development vision Neck

Commissioned by Rabo Bouwfonds, a proposal was prepared in collaboration with representatives of local associations and organisations for the sustainable development of the village Neck, 2007.

Design of development location in the green heart (*public competition, NIROV - Institute of Land-use Planning and Housing and Social Housing*)

Design for clay marshes to the West of Boskoop as a location/elaboration of a development vision for building in the green heart while maintaining the marsh features and with a red for green philosophy. In cooperation with Atelier Bruut, 2008.
